

Plan B

in South Dakota

What is Plan B?

Plan B® is an emergency contraceptive that can help prevent pregnancy after contraceptive failure, unprotected sex, or sexual assault. When taken within 72 hours, it can substantially reduce the risk of pregnancy. Plan B® is not RU-486 (the abortion pill); it will not work if you are already pregnant.

How can I get Plan B?

If you are 18 or older, you can purchase emergency contraception at a pharmacy counter without a prescription or obtain the medication from a healthcare clinic. If you are under 18, in most states you will need a prescription from a doctor and fill the prescription at a pharmacy. Under South Dakota Law, pharmacists may refuse to dispense Plan B®, so it is recommended that you call ahead to verify availability.

Where can I get Plan B?

Listed below are locations that have indicated they stock Plan B®. It is recommended that you call first to confirm availability.
